ENVIRONMENTAL PERFORMANCE

Past Accomplishments

Best Washington Uniform Supply, Inc has demonstrated its commitment to environmental performance by reducing wastewater discharge. Since 1997, the facility has:

- **Reduced wastewater discharge volume** by 31% despite increased needs. This was accomplished by reforming current practices and purchasing new equipment.

Future Commitments

Best Washington Uniform Supply, Inc is also committed to continued environmental improvement through reductions in energy and natural gas use. By 2003 the facility will:

- **Reduce energy use** by 4% by updating to better lighting fixtures around the facility.

- **Reduce natural gas use** by 5% by repairing old equipment and also by purchasing new equipment where the need arises.

COMMUNITY OUTREACH

The Best Washington Uniform Supply facility is committed to community involvement by sending out routine newsletters to the public updating them about changes in the facility. The president gives presentations at environmental conferences and public events to inform the public of their EMS. The Annual Report will be highlighted in their yearly newsletter and they are working on the creation of their Web Site, which will also display their Annual Reports.
